EASY SANSKRIT LEVEL 2

ABOUT THE COURSE / COURSE OVERVIEW

The Easy Sanskrit Course - Level 2 is for the advanced student who has completed the CIF Easy Sanskrit Course or equivalent. The grammar element introduced in Level 1 is further explained using Sanskrit text extracts from the Puranas. This course using the method of explanation through suitable examples will help the student to rapidly gain indepth understanding of the grammar elements in Sanskrit. Learn the lakaras, seven cases, prtyayas and upasarga through the inspiring stories of Ramayana, Bhagavata-purana and Bhagavad-gita. The course material will be a useful guide for future studies as a ready reckoner. Swami Ramakrishnananda who has designed this course, is a keen teacher of Sanskrit and has taught the language to several batches of students, so that he brings to this programme a keen perception of a new student's learning needs.

COURSE OBJECTIVES / REWARDS

This course also serves like its earlier course, for all those who wish to peep into the priceless tradition, culture and philosophy of India. On completing this course, reading the Puranas, Upanishads and the various Gita and their commentaries will become easy. This also enables one to enter into the Advanced Sanskrit course with confidence.
